

JOB TITLE:	Water Testing Assistant (Field Team)
REPORTING TO:	Water Testing & Commissioning Manager
DIRECT REPORTS:	None
JOB LOCATION:	England & Wales Site Dependant
JOB PURPOSE:	The purpose of this position is to test, chlorinate and take samples to facilitate the commissioning of new Water Networks across England and Wales

Responsibilities

- Exercise safe working practices at all times in line with the Health and Safety at Work Act (1974), wearing the correct PPE at all times.
- Assisting the water testing engineer to Install Test, chlorinate and commission water infrastructure as instructed working to Scottish Water Codes of Practice, ensuring that all work is undertaken to a high standard of safety and technical quality by following all appropriate generic and specific method statements, work procedures and safety instructions.
- Have a full and comprehensive understanding of all incumbent and IWNL Testing, chlorinating, and Sampling procedures, under the guidance of the water testing engineer.
- Assisting the water testing engineer on Final Connections (Primary tie-ins complex and non-complex) – it is expected that if not already qualified to do so this will be a part of the development plan for your personal and business objectives.
- Assisting the water testing engineer on Secondary Connections (complex and non-complex)
- Accept delivery of plant and materials and check fitness for purpose prior to use.
- Ensure vehicles, plant and equipment remain in good condition, and report any defects to the Team leader / Project Manager.
- Assisting the water testing engineer to identify at an early stage all contract variations and report to the Project Manager and work in accordance with the company Variation and Deviations Procedure.
- Complete site-specific risk assessments daily and ensure maintenance of a safe working environment, under the guidance of the water testing engineer.
- Attend “toolbox talks” and other training courses as required, under the guidance of the water testing engineer.
- Record accurately details of work undertaken.
- Submit relevant work details for recording and invoicing in the required timescale.
- Any other duties as deemed appropriate by the Project Manager that fall within the general experience scope of the individual.
